Terrain description

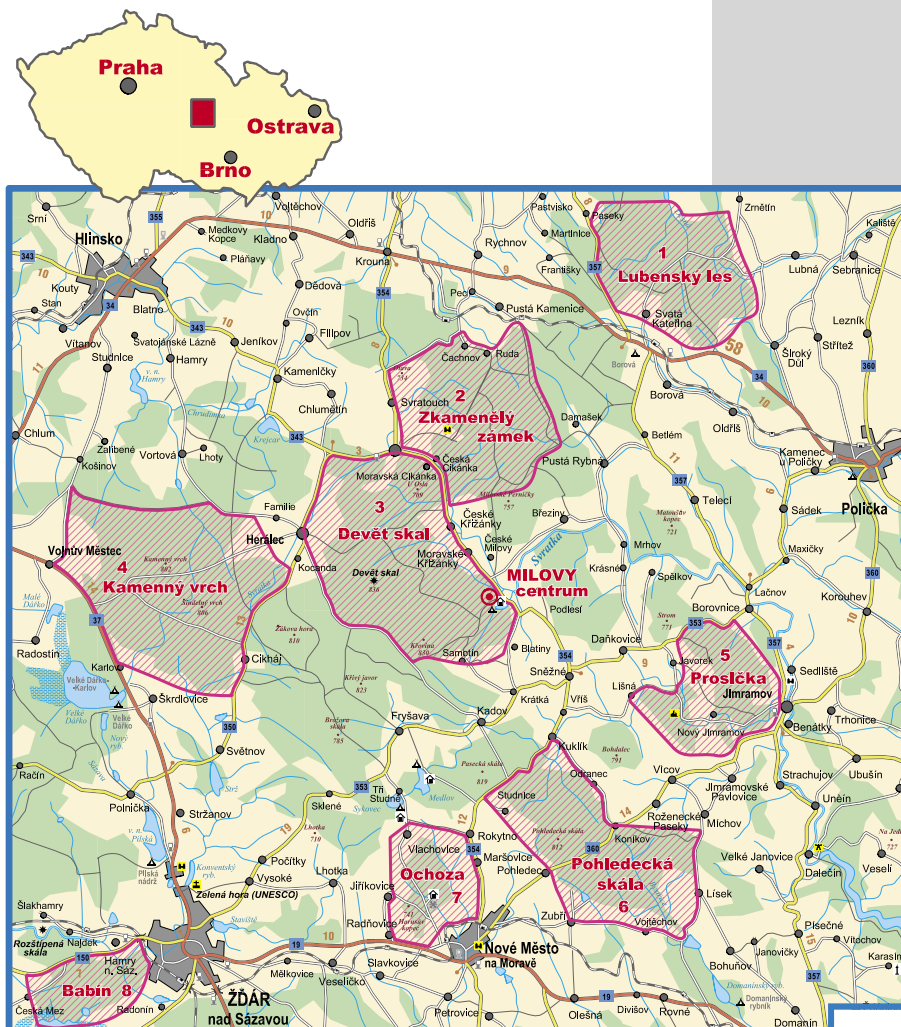

There are very different terrains, in a distance from 0 km up to 30 km from the event centre. The altitude of the race areas is between 600 and 800 m above sea level. All terrains are moderately hilly with a developed network of roads, paths and small paths of different quality. The terrain as well as the dense path network request a highly developed MTB-orienteering technique. Some parts of the competition area are terrains with a very dense path net (ski tracks area) and offering excellent roads for the high speed orienteering competition.

Training possibilities

May, June 2006	Czech MTBO cup events
2.-3. Sept. 2006	pre-WOC event (similar terrain, Žďár n.S.)
October 2006	Czech MTBO cup event
