at Event center, 2-days score MTBO race of couples „Bike adventure“. It is an unusual cycling marathon where you aren't bound by a set route length but you just ride what you manage to ride. It's a cycling trip according to a tourist map. A thrilling combinative puzzle where you try to solve the problem how to achieve as many points as possible during the pre-set time limit and moreover you change the chosen tactics several times according to how you are running short of energy.
